

GLOBAL GROWTH

INVESTOR UPDATE FEBRUARY 2022

FORWARD LOOKING INFORMATION

This presentation contains “forward-looking information” within the meaning of applicable securities laws. Forward looking information may relate to our future outlook and anticipated events or results and may include information regarding our financial position, business strategy, growth strategy, budgets, operations, financial results, taxes, dividend policy, plans, intentions, beliefs, and objectives of our Company. Particularly, information regarding our expectations of future results, performance, achievements, prospects or opportunities is forward looking information. In some cases, forward looking information can be identified by the use of forward looking terminology such as “plans”, “targets”, “expects”, “does not expect”, “is expected”, “an opportunity exists”, “budget”, “scheduled”, “estimates”, “outlook”, “forecasts”, “projection”, “prospects”, “strategy”, “intends”, “anticipates”, “does not anticipate”, “believes”, or variations of such words and phrases or state that certain actions, events or results “may”, “could”, “would”, “might”, “will”, “will be taken”, “occur” or “be achieved”. In addition, any statements that refer to expectations, intentions, projections or other characterizations of future events or circumstances contain forward looking information. Statements containing forward looking information are not historical facts but instead represent management’s expectations, estimates and projections regarding future events or circumstances. In addition, our assessments of, and targets for, annual revenue, Adjusted EBITDA, Adjusted diluted earnings per share and certain other measures are considered forward looking information. See the section titled “Outlook” in our most recently filed MD&A for additional information concerning our strategies, assumptions and market outlook related to these assessments.

The forward-looking information contained in this presentation is based on management’s opinions, estimates and assumptions in light of its experience and perception of historical trends, current conditions and expected future developments, as well as other factors that we believe to be appropriate and reasonable in the circumstances. Despite a careful process to prepare and review the forward-looking information, there can be no assurance that the underlying opinions, estimates and assumptions will prove to be correct. Certain assumptions in respect of the ability to pursue further strategic acquisitions; our ability to source raw materials and other inputs from our suppliers; our ability to continue to innovate product offerings that resonate with our target customer base; our ability to retain key management and personnel; our ability to continue to expand our international presence and grow our brand internationally; our ability to obtain and maintain existing financing on acceptable terms; currency exchange and interest rates; the impact of competition; changes to trends in our industry or global economic factors; and changes to laws, rules, regulations and global standards are material factors made in preparing the forward looking information and management’s expectations contained in this presentation.

The forward-looking information contained in this presentation represents management’s expectations as of the date of this presentation and is subject to change after such date. However, we disclaim any intention or obligation or undertaking to update or revise any forward-looking information whether as a result of new information, future events or otherwise, except as required under applicable securities laws in Canada.

Forward-looking information is necessarily based on a number of opinions, estimates and assumptions that management considered appropriate and reasonable as of the date such statements are made, is subject to known and unknown risks, uncertainties, assumptions and other factors that may cause the actual results, level of activity, performance or achievements to be materially different from those expressed or implied by such forward-looking information, including but not limited to those described under the heading “Risk Factors” in our 2021 annual MD&A for the fiscal year ended December 31, 2021 and in our most recent annual information form.

We caution that the list of risk factors and uncertainties under the heading “Risk Factors” is not exhaustive and other factors could also adversely affect our results. Readers are urged to consider the risks, uncertainties and assumptions carefully in evaluating the forward-looking information and are cautioned not to place undue reliance on such information.

NON-IFRS FINANCIAL MEASURES

This presentation may make reference to the following non IFRS financial measures: “EBITDA”, “Adjusted EBITDA”, “Adjusted net earnings”, “normalized gross profit”, “normalized SG&A”, “normalized earnings from operations”, “cash from operating activities before working capital considerations” and “net debt”, the following non-IFRS ratios: “Adjusted EBITDA margin”, “Adjusted diluted earnings per share”, “normalized gross profit margin”, “normalized operating margin”, and the following supplementary financial measures: “gross profit margin”, “operating margin” and “USD denominated revenue”, to provide supplemental measures of our operating performance and thus highlight trends in our core business that may not otherwise be apparent when relying solely on IFRS financial measures. Accordingly, these measures should not be considered in isolation nor as a substitute for analysis of our financial information reported under IFRS. For further details on these non-IFRS measures, non-IFRS ratios, and supplementary financial measures, including relevant definitions and certain reconciliations, see our most recently filed MD&A.

This outlook reflects the following assumptions:

- International growth rate of 20% on a constant currency basis
- Normalized SG&A increases of 5% to 8% from increased investments in international markets and our long-term growth opportunities in China
- Interest expense of approximately \$5.0 - \$5.5 million, based on our estimated borrowing and prevailing rates
- Income tax rate of approximately 27%
- A fully diluted share count of approximately 42.0 million shares
- Average annual exchange rate between the U.S. and Canadian dollar of U.S. \$100 to \$1.26

The COVID-19 pandemic continued to impact businesses globally throughout 2021 and there is a continuing risk that the COVID-19 pandemic may impact the results of operations or financial condition. Any prolonged retail or manufacturing closures could impact the Company's ability to service its customers and consumers. An outbreak within the Company's operating facilities could result in absenteeism or a plant closure for an extended duration. Suppliers may experience a business disruption which could impact the supply of raw materials or components required for production. Limitations on transportation or border closures may result in shipment delays from the Company's suppliers or to its customers. The duration and impact of the COVID-19 pandemic remains unknown. This includes the rate and manner in which vaccines are distributed, as well as vaccine efficacy against future COVID-19 variants and strains. The Company continues to review its safety protocols to reflect new government or public health recommendations. The Company has not benefited from nor applied for any government financial aid or relief relating to the COVID-19 pandemic. The Company's 2022 estimates may be impacted by the depth and duration of any additional measurements implemented as a result of COVID-19.
