

INVESTOR PRESENTATION : JUNE 2019

FORWARD LOOKING INFORMATION

This presentation contains “forward-looking information” within the meaning of applicable securities laws in Canada. Forward-looking information may relate to our future outlook and anticipated events or results and may include information regarding our financial position, business strategy, growth strategies, budgets, operations, financial results, taxes, dividend policy, plans and objectives. Particularly, information regarding our expectations of future results, performance, achievements, prospects or opportunities is forward-looking information. In some cases, forward-looking information can be identified by the use of forward-looking terminology such as “plans”, “targets”, “expects” or “does not expect”, “is expected”, “an opportunity exists”, “budget”, “scheduled”, “estimates”, “outlook”, “forecasts”, “projection”, “prospects”, “strategy”, “intends”, “anticipates”, “does not anticipate”, “believes”, or variations of such words and phrases or state that certain actions, events or results “may”, “could”, “would”, “might”, “will”, “will be taken”, “occur” or “be achieved”. In addition, any statements that refer to expectations, intentions, projections or other characterizations of future events or circumstances contain forward-looking information. Further, our assessments of and targets for annual revenue, Adjusted EBITDA and certain other measures are considered forward-looking information. Statements containing forward-looking information are not historical facts but instead represent management’s expectations, estimates and projections regarding future events or circumstances. See the section titled “Outlook” in our most recently filed MD&A concerning our strategies, assumptions and market outlook related to these assessments.

Forward-looking information contained in this presentation is based on our opinions, estimates and assumptions in light of our experience and perception of historical trends, current conditions and expected future developments, as well as other factors that we currently believe are appropriate and reasonable in the circumstances. Despite a careful process to prepare and review the forward-looking information, there can be no assurance that the underlying opinions, estimates and assumptions will prove to be correct. Certain assumptions in respect of the ability to pursue further strategic acquisitions; our ability to source raw materials and other inputs from our suppliers; our ability to continue to innovate product offerings that resonate with our target customer base; our ability to retain key management and personnel; our ability to continue to expand our international presence and grow our brand internationally; our ability to obtain and maintain existing financing on acceptable terms; currency exchange and interest rates; the impact of competition; changes to trends in our industry or global economic factors; and changes to laws, rules, regulations and global standards are material factors made in preparing the forward-looking information and management’s expectations contained in this presentation.

The forward-looking information contained in this presentation represents management’s expectations as of the date of this presentation and is subject to change after such date. However, we disclaim any intention or obligation or undertaking to update or revise any forward-looking information whether as a result of new information, future events or otherwise, except (i) as required under applicable securities laws in Canada and (ii) to provide updates in our annual MD&A for each financial year up to and including that in respect of 2021 on our growth targets disclosed in our final prospectus dated June 29, 2017 in respect of our initial public offering, including to provide information on our growth targets disclosed in such prospectus, actual results and a discussion of variances from our growth targets. The forward-looking information contained in this presentation is expressly qualified by this cautionary statement.

Forward-looking information is necessarily based on a number of opinions, estimates and assumptions that management considered appropriate and reasonable as of the date such statements are made, is subject to known and unknown risks, uncertainties, assumptions and other factors that may cause the actual results, level of activity, performance or achievements to be materially different from those expressed or implied by such forward-looking information, including but not limited to those described under the heading “Risk Factors” in our 2018 annual MD&A for the fiscal year ended December 31, 2018.

We caution that the list of risk factors and uncertainties under the heading “Risk Factors” is not exhaustive and other factors could also adversely affect our results. Readers are urged to consider the risks, uncertainties and assumptions carefully in evaluating the forward-looking information and are cautioned not to place undue reliance on such information.

NON-IFRS MEASURES

This presentation makes reference to certain non-IFRS measures including “Adjusted EBITDA” and “Adjusted Earnings per Share”. Non-IFRS measures do not have a standardized meaning prescribed by IFRS and are therefore unlikely to be comparable to similar measures presented by other companies. Rather, these measures are provided as additional information to complement those IFRS measures by providing further understanding of our results of operations from management’s perspective. Accordingly, these measures should not be considered in isolation nor as a substitute for analysis of our financial information reported under IFRS. For further details on these non-IFRS measures including relevant definitions and certain reconciliations, see our most recently filed MD&A.

Upside opportunity: Advancement in China

What's next for Jamieson in China?

- Up to 15-20 additional product certifications expected by end of 2019
- Continued leverage of strong brand equity in China and support of current product offerings
- Potential for Jamieson to acquire existing distributor at end of 2022
- Launching double-digit products into the domestic market in Q3 with a global mass retailer

NET PROMOTER SCORE¹

20%
BRAND AWARENESS²

¹ Consumers asked how likely they would recommend the brand to their friends or colleagues; Net promoter score is calculated by subtracting the percentage of consumers who are detractors from the percentage who are promoters.

² Based on customer survey conducted by leading global third-party consulting firm in December 2015.

Upside opportunity: M&A

- Acquired LVHS in 2014 and Body Plus and Sonoma in 2017 and are focused on integration and our robust organic growth opportunities
- Routinely monitor market for acquisitions to accelerate strategic objectives and drive synergies

Two key areas we focus on:

1. Established brands in developed markets
2. Opportunity to expand our manufacturing capabilities (i.e. gummies or probiotics)

Experienced team. Years of results.

This outlook reflects IFRS 15 revenue recognition accounting and the following assumptions:

- Normalized SG&A increases of 11% to 15% to support international market growth and e-commerce initiatives, among other costs
- Increased depreciation expense reflecting higher capital expenditures to support capacity expansions and the capitalization of operating leases with the implementation of IFRS 16
- A forecasted CAD/USD exchange rate of \$1.33
- Interest expense of \$9.0 million to \$9.5 million, based on interest rates ranging between 4.5% to 5.5%
- Income tax rate of approximately 28%
- A fully diluted share count of approximately 40.0 million shares
